

## Get to know each other

### Icebreaking and brainstorming exercise

- Please take a piece of paper and write your first name in the middle.
- On the top of the left and right corner please write two positive things about VET education in your country.
- At the bottom on the right and left corner please write two challenges in connection with VET education in your country.

## Get to know each other

- Now stick on their breast and know starts music (there will be five different music and five sessions). Teachers walk around and find a partner to talk to – they should find a partner of the country whose music is plaid. As there are five teachers in each country then there will be five member groups and when music stops teachers start to discuss about the words written by the trainer whose music has plaid. The teams should be mixed. This session will be repeated five times.
