

# International Teacher Training Day Programme Day 1

**In the following you will be introduced to our way of working in a padlet during our 5th Partner Event, on the 3rd + 4th of October, 2023.**

- At first, there is a slide showing a timeline for the programme on Day 1 of the Teacher Training event with links to some of the activities.
- Secondly you'll see a slide indicating how we rated different VET skills needs and a brief statement to some of the needs chose.
- The final slide shows our conclusions of the first day at the 5th Partner Event.

## Analyze needed competences

Key competences lay the foundation for resilience, lifelong learning, employability, social inclusion, active citizenship and personal development, and support green and digital transition.

**literacy**

★★★★★ (5) Bedöm 0

**multilingual**

★★★ (5) Bedöm 0

**mathematical, science, technology and engineering**

★★★★★ (5) Bedöm 1

**Anonym 8 måneder**  
really want to get right amount of medicine when we are older.

**digital**

★★★★★ (5) Bedöm 1

**Anonym 8 måneder**  
Teachers have to be technologically updated. They should transmit this knowledge to their students as well (and not only about programmes, but aswell cyber security).

**personal, social and learning to learn**

★★★★★ (5) Bedöm 4

**citizenship**

★★★ (5) Bedöm 0

**Anonym 8 måneder**  
personal growing. adapting for future changes.

**Anonym 8 måneder**  
Life long learning/ flexibility/ emotional managment/ soft skills (communication etc.)

**Anonym 8 måneder**  
Its a key to work with people to grow

**Anonym 8 måneder**  
Self-awareness, empathy, communication skills, equality, knowing your strengths.

**cultural awareness and expression**

★★★★★ (5) Bedöm 0

**entrepreneurship**

★★★ (5) Bedöm 0

**Information**

Look at the key competences that are presented. Discuss and assess (with the scale 1-5 stars) each competence in your group. Wich are the new skills required for future professionals to provide the service?

**How relevant do you consider the proposed new skills for providing the service to be for YOUR students?**

SCALE:

- 1= Not at all relevant
- 2= Only slightly relevant and not worth investing much in developing
- 3= Quite relevant and worth considering as a possible addition to our VET-education programmes
- 4= Very relevant and a good addition to our VET-education programmes
- 5= Extremely relevant – almost essential for the future of our VET-education programmes

**After rating, choose the most relevant skill and write the central contet from your discussions in the talk-bubble. Please be ready to present your groupwork with the rest of us.**

## Conclusions

### Information

**Klick on the + icon.**  
Write your conclusions of:

1. joint identification of transnationally relevant VET skills needs and key competences
2. methods to define and analyze skills needs
3. cultural awareness and expression

and prepare to **share your conclusions with everyone else**

♡ 0

### Denmark

1. We share many of the same issues in our VET educations.
2. The conclusion for us is that a combination of quantitative and qualitative data give the best result.
3. Good inspiration to our own teaching

♡ 0

### Basque Country

1. it is important to jointly identify competences in order to generate a comprehensive framework
2. it is advisable to make a combination of different methods to avoid biases
3. inspirator for classroom work

♡ 0

### Team Finland

1. Surprisingly unanimous opinions on the relevance of the VET skills needs and key competences between the countries. The challenges and needs seem to be quite similar in all our schools.
2. We feel that the part about assessment methods was quite abstract, since we haven't been involved in the project before and don't have insight into the specific topics and queries.
3. Interesting concept, but a bit confusing and challenging. However, good actors and reflections.

♡ 0

### Team The Netherlands

1. In the beginning very open, missing some information. Interaction was very nice. Surprised that we came to the same keyskills with all of the countries.
2. It would have been nice if we knew something more about the subject of this topic. It was clear what the methods were but not clear what the output was of all this methods. That could be more interesting for the participants who are new in this group.
3. Excercise was a littlebit confusing. Output was nice and relaxed. We had a good laugh.

♡ 0

### Team Estonia

To conclude we found today that problems with VET are similar to all 5 countries. :) All methods have positive and negative sides. It depends of the situation, what method is the most suitable. Cultural awareness is important, but we think our views are quite similar in some of situations/opinions.
